THR233: Voice and Movement for the Stage | Winter 2020

The COVID-19 pandemic started during this course and as a result, was moved to remote instruction for the last five weeks. In their evaluations, students were asked to reflect on how the change in the mode of instruction impacted their work in the course.

"I liked that we learned through movement and other engaging exercises for each type of work we covered each week. It allowed me to learn and gain a better understanding of the material, especially in class like this. This type of class emphasized hand-on learning rather than class lectures, which was beneficial for me."

"Gabe, I love you and I think you're a great professor. The workload was manageable, and classes were fun...."

"I wouldn't make any improvements [to the course] because I enjoyed the material we learned about, and [I enjoyed] how we had journal entries to share thoughts on each type of work we focused on each week."

"Professor Vanover was a very effective instructor for this course. He was always engaging for every class and encouraged class participation for all the exercises and hands-on learning we did. Also, he adapted to online learning very well, as he developed meaningful things to do in class via zoom and giving us fun assignments that were meaningful toward the class material."

Question: Please provide comments about the aspects of remote learning that were most effective for your learning.				
"Professor Vanover did a great job of making REMOTE learning an easy shift for me. Since the things we did in class couldn't be done via zoom, he completely changed the assignments for the rest of the semester. These assignments were fun and engaging to do, as I was still able to effectively learn the material."				

THR115: Film as Art | Fall 2020

For the Fall 2020 term, Hanover College offered with a variety of modalities. This course was in-person, but moved to online instruction in November, due to a rise of COVID cases nationwide. Some of the comments from students reflect this sudden change in modality. Two other notes: The "Kahoots" students mention is a digital system that combines trivia and lectures, allowing students to complete for points throughout the class; I had worked with the registrar's office to make this an evening course that met once a week, and it was offered in this form for the first time in Fall 2020.

"I found the lectures in combination with the Kahoots very effective."

"I found the one class a week effective because it allowed for the lecture and the viewing of the film to be in one day."

"I loved the Kahoots and the group work."

"I really do not have any improvements [for the course], I really enjoyed this class."

"I cannot think of any things that need improvement."

"[Professor Vanover is] very knowledgeable of the material and made learning interesting. The use of many examples of the class material applied in the real world was very helpful. The workload was just right and I looked forward to having this class."

I also liked how we were able to relate each topic we discussed into our own lives and how it has effected us because it gave another perspective on the various units that were covered. I thought everything about the class was effective in my success in both understanding the material and then being able to apply it to any question that was asked."

It was also beneficial for students to be shown Disney clips and films to get a better understanding of what he just taught us in the lecture. It was nice to have a visual and analyze the movies. He also gave us quizzes that test our knowledge on our readings pretty accurately."

"He was incredible! Wish I took more classes with him."
